OBJECTIVE

Computer Science graduate with strong foundations in backend systems, computer networks, and web security. Skilled in Node.js, .NET, and security tools like Burp Suite and Nmap. Seeking to pursue a Master's in Computer Science with interests in Networking, Systems, and Cybersecurity.

EDUCATION

C.V. Raman Global University

Bachelor of Technology

CGPA : 8.43/10

Bhubaneswar, Odisha

2020 - 2024

Olympia World College

Senior Secondary

CGPA : 3.68/4

Kathmandu, Nepal

2018 - 2020

TECHNICAL SKILLS

Programming:

C++, Java, JavaScript, SQL, Typescript, C#, C

Frameworks:

Node.js, Express.js, Spring Boot, .NET

Tools:

Postman, MYSQL, MongoDB, Git, GitHub

Platforms:

Visual Studio Code, Visual Studio, IntelliJ IDEA

Networking and Security:

Cisco Packet Tracer, Nmap, Burp Suite (Web Application Security Testing)

Professional Experience

Bajra Technologies

Trainee - .NET Developer

Nov. 2024 - Feb. 2025

MediConnect - Appointment Management System

- Developed a cross-platform mobile application using .NET MAUI to streamline appointment scheduling and digital record management for patients, doctors, and lab technicians.
- Utilized Syncfusion Calendar to enable patients to check doctor availability and book appointments seamlessly.
- Integrated Syncfusion Scheduler to manage daily and weekly schedules for doctors and lab technicians, ensuring efficient appointment tracking.
- Implemented features for doctors to view schedules, manage appointments, and write digital prescriptions.
- Enabled lab technicians to upload and share medical test reports with patients and doctors.
- Provided patients with access to digital prescriptions and medical reports, improving healthcare management.

ACADEMIC PROJECTS

Customized notion like web app (React.js, PostgreSQL, Node.js) [↗](#)

- Architected a full-stack application using React.js frontend and Node.js backend with RESTful APIs, implementing secure authentication and real-time data synchronization.
- Developed a robust database schema using Prisma ORM, managing complex relationships between workspaces, pages, and user data with efficient query optimization.
- Built a sophisticated rich text editor with custom extensions, supporting markdown syntax, nested content blocks, and real-time collaborative features.

- Created scalable API endpoints for CRUD operations, user authentication, and workspace management, ensuring efficient data flow and state management across the application.

Cloth Try-on

- Engineered a deep learning-powered virtual try-on system utilizing models like OpenPose, U2-Net, and ResNet-101 to accurately segment and fit garments, ensuring highly realistic try-on experiences.
- Designed and implemented a user-friendly interface that allows users to easily upload images and virtually try on clothing, providing an intuitive and seamless experience.
- Achieved high accuracy in garment segmentation and fitting through the integration of advanced deep learning techniques, significantly enhancing the realism and precision of the virtual try-on process.

Educational Institute Website (Node.js)

- Developed backend features for user authentication with JWT, admin-controlled notifications, and chunkbased video streaming.
- Implemented secure login/signup flows and a scalable video streaming service with admin functionalities for uploading via multer and managing content.
- Enhanced project efficiency with chunk-based video rendering, minimizing buffering, improving start times, and enabling adaptive streaming for scalability and security.

PUBLICATION

- **Title:** *Advancement in Virtual Fitting Rooms: Integrating AI for Enhanced Online Shopping Experiences*
Conference: 15th ICCCNT (IEEE)
Date: November 2024
DOI/Link: <https://doi.org/10.1109/ICCCNT61001.2024.10724276>

CERTIFICATIONS AND ONLINE COURSES

- Cisco Endpoint Security - September 2025
- Securing Software (MOOC) – University of Helsinki, 2025 (certificate pending)
- Cisco Introduction to Cybersecurity- July 2025
- Cisco Certified Network Associate (CCNAv7) – May 2022

ACHIEVEMENTS

- Achieved a rating of 1653 on LeetCode, placing in the top 16 of programmers on the platform. [Leetcode](#).
- Achieved the highest rating of 1650 (3 stars) on CodeChef, demonstrating advanced problem-solving skills. [codechef](#)
